INTRODUCTION

Established in 1997, Alnahrain Security & Safety is an Engineering, Contracting and Service Provider Company and is one of the leading Supplier of Choice for Fire Detection and Fire Protection Systems.

We offer wide range of services from design, supply, installation, maintenance, testing and commissioning of fire detection and fire protection systems. These services are well supported by our several departments from Service and Maintenance Department, Engineering Department and Business Development Department.

Being an ISO 9001-2008 certified company, Alnahrain follows a strict globally accepted standards in providing Fire Safety Solutions for developers, retailers and businesses throughout Sharjah and other Northern Emirates.

The services and solutions we provide are individually tailored to our client's need and take account of their objective for statutory compliance, duty of care and protection of their business. Regular inspection and review of all Fire Safety Systems and Equipment is of paramount importance. Our ability to back it up with comprehensive training, efficient maintenance and thorough system know-how has greatly reduced the risks among our various clientele.

With the knowledge and systematic approach of our sound and professional Engineers, Technicians, we were able to develop an excellent service that is second to none.

GENERAL MANAGER'S MESSAGE

As the economy grows and evolves, the demand of having a more secure and reliable workspace and working environment is on its peak.

The evolution of the fast paced economy is as what we are into, with our goals to meet the standards set and as well provide a competitive market without sacrificing the high standard of Service and Excellent Customer Support and Satisfaction.

We at ALNAHRAIN SECURITY & SAFETY continues to seek and provide the highest quality of service. We always set a high standards of service and making sure to have the satisfaction met to our clients.

With over 18 years of proven experience, we are at pride to present to our clients and future business partners our products and services offered.

Thank you and we hope to have a wonderful business partnership with us ahead.

Engr. Salaheldin Saleh

General Manager

QUALITY POLICY

SAFETY POLICY

- ✓ To ensure the education, interest and awareness training of new employees in safe working methods before assumption of duty.
- ✓ Ensure that the organization is a safe place, and the environment, facilities, equipment and substances are subject to safe systems of works to prevent risks to health or safety.
- ✓ Promote personal responsibility and effort on the part of everyone to avoid and prevent health hazards and injuries to themselves and to others who may be affected by their acts or omissions and cooperate with the organization to comply with its duties, requirements and statutory obligations.
- ✓ Ensure the use of defensive driving techniques by car drivers and machinery operators.
- ✓ Ensure that safety is a line management responsibility.
- ✓ Monitor effectiveness of safety policy.

- ✓ To implement high standards of services in the field of fire detection and fire protection systems.
- ✓ To ensure all materials, machines and equipment to be used in each project has been subjected to quality inspection.
- ✓ To attain high level of customer satisfaction through the quality products and services offered by the company.
- ✓ Verifying and validating both existing and new programs.
- ✓ Continued research on the improvement of the quality of our products and services.
- ✓ Conduct a regular internal quality audit and management review for an on-going evaluation and improvement of our quality system.
- ✓ To implement acts of professionalism in the work environment , whether at the office or at the site and ensure that the quality procedures are well communicated among the company employees.
